

fety Data Sheet dated 25/1/2017, version 5 CTION 1: Identification of the substance/mixture and of the company/undertaking	
1.1. Product identifier Trade name: SOPRO RACO	DFIX 2000
1.2. Relevant identified uses of the Cement based powder adhesive Uses advised against: ==	e substance or mixture and uses advised against
1.3. Details of the supplier of the s Supplier: SOPRO BAUCHEMIE Gmb	afety data sheet H - Biebricher Strasse 74 - D-65203 Wiesbaden lab.phone: +49-(0)611/1707-330 phone: +49-(0)611/1707-0 fax: +49-(0)611/1707-335
Competent person responsible for safetydatasheet@sopro.com	
1.4. Emergency telephone number SOPRO BAUCHEMIE Gmb Giftnotruf Berlin +49-(0)30 3	H - phone: +49-(0)611/1707-400 (office hours)
CTION 2: Hazards identification	
2.1. Classification of the substance EC regulation criteria 1272/2008 (
 ♥ Warning, Skin Irrit. 2, Cau ♥ Danger, Eye Dam. 1, Cau ♥ Warning, STOT SE 3, Mage 	
Adverse physicochemical, human No other hazards	health and environmental effects:
2.2. Label elements	
Hazard pictograms:	
Danger Hazard Statements: H315 Causes skin irritation.	

H318 Causes serious eye damage.
H335 May cause respiratory irritation.
Precautionary Statements:
P261 Ávoid breathing dust.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P302+P352 IF ON SKIN: Wash with plenty of water.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact
lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER.
Special Provisions:
None
Contents:
Portland cement, Cr(VI) < 2 ppm
calcium hydroxide
P102 Keep out of reach of children.
P332+P313 If skin irritation occurs: Get medical advice/attention.
P332+P313 II SKIN IMIAIION OCCUIS. Get medical advice/allention.
Special provisions according to Appay XV/II of PEACH and subsequent amondmenter
Special provisions according to Annex XVII of REACH and subsequent amendments:
None 0.0. Other harmada
2.3. Other hazards
vPvB Substances: None - PBT Substances: None
Other Hazards:
No other hazards
See at paragraph 11 the additional information concerning crystalline silica
SECTION 3: Composition/information on ingredients 3.1. Substances N.A.
3.2. Mixtures
Hazardous components within the meaning of the CLP regulation and related classification:
>= 25% - < 50% free crystalline silica (\emptyset >10 μ)
CAS: 14808-60-7, EC: 238-878-4
The product is not classified as dangerous according to Regulation EC 1272/2008 (CLP).
>= 25% - < 50% Portland cement, Cr(VI) < 2 ppm
CAS: 65997-15-1, EC: 266-043-4
1.8/3 STOT SE 3 H335
♦ 3.3/1 Eye Dam. 1 H318
$\sim -10/$ $\sim 2.50/$ coloium budrovido
>= 1% - < 2.5% calcium hydroxide
REACH No.: 01-21194575151-45-XXXX, CAS: 1305-62-0, EC: 215-137-3
1.3.8/3 STOT SE 3 H335
1.2/2 Skin Irrit. 2 H315
♦ 3.3/1 Eye Dam. 1 H318
SECTION 4: First aid measures
4.1. Description of first aid measures

Page n. 2 of 9

In case of skin contact:
Immediately take off all contaminated clothing.
CONSULT A PHYSICIAN IMMEDIATELY.
Remove contaminated clothing immediately and dispose off safely.
After contact with skin, wash immediately with soap and plenty of water.
In case of eyes contact:
After contact with the eyes, rinse with water with the eyelids open for a sufficient length of time,
then consult an opthalmologist immediately.
Protect uninjured eye.
In case of Ingestion:
Do not under any circumstances induce vomiting. OBTAIN A MEDICAL EXAMINATION IMMEDIATELY.
Wash the mouth thoroughly and drink plenty of water. In case of disease consult a physician
immediately and present this safety-data sheet.
In case of Inhalation:
In case of inhalation, consult a doctor immediately and show him packing or label.
4.2. Most important symptoms and effects, both acute and delayed
If inhaled, the product causes irritation in the airways. and if brought into contact with the skin, it
causes appreciable inflammation, with erythema, scabs, and oedema.
If brought into contact with the eyes, the product causes serious eye injury, such as opacity of
the cornea or lesions to the iris.
This preparation contains cement. Contact between cement and body fluids (e.g. sweat and eye
fluids) may cause irritation or burns.
4.3. Indication of any immediate medical attention and special treatment needed
In case of accident or unwellness, seek medical advice immediately (show directions for use or
safety data sheet if possible).
Treatment:
(see paragraph 4.1)
SECTION 5: Firefighting measures
SECTION 5: Firefighting measures
5.1. Extinguishing media
5.1. Extinguishing media Suitable extinguishing media:
5.1. Extinguishing media Suitable extinguishing media: Water.
5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher.
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons:
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular.
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture The product does not present a fire hazard
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture The product does not present a fire hazard 5.3. Advice for firefighters
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture The product does not present a fire hazard 5.3. Advice for firefighters Use suitable breathing apparatus .
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture The product does not present a fire hazard 5.3. Advice for firefighters Use suitable breathing apparatus . Collect contaminated fire extinguishing water separately. This must not be discharged into
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture The product does not present a fire hazard 5.3. Advice for firefighters Use suitable breathing apparatus . Collect contaminated fire extinguishing water separately. This must not be discharged into drains.
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture The product does not present a fire hazard 5.3. Advice for firefighters Use suitable breathing apparatus . Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Move undamaged containers from immediate hazard area if it can be done safely.
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Special hazards arising from the substance or mixture The product does not present a fire hazard 5.3. Advice for firefighters Use suitable breathing apparatus . Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Move undamaged containers from immediate hazard area if it can be done safely. SECTION 6: Accidental release measures
 5.1. Extinguishing media Suitable extinguishing media: Water. CO2 or Dry chemical fire extinguisher. Extinguishing media which must not be used for safety reasons: None in particular. 5.2. Environmental precautions

	3. Methods and material for containment and cleaning up
	apidly recover the product, wearing protective clothing.
	coop into containers and seal for disposal.
	ter the product has been recovered, rinse the area and materials involved with water.
	4. Reference to other sections
0.	See also section 8 and 13
SECTIC	DN 7: Handling and storage
	1. Precautions for safe handling
	Avoid contact with skin and eyes and exposure to high dust concentration.
	Avoid contact with skin and eyes and exposure to high dust concentration. Avoid powder development and deposit
	Use localized ventilation system.
	Don't use empty container before they have been cleaned.
	Before making transfer operations, assure that there aren't any incompatible material residuals
	in the containers.
	Contamined clothing should be changed before entering eating areas.
	Do not eat or drink while working.
	See also section 8 for recommended protective equipment.
7.	2. Conditions for safe storage, including any incompatibilities
	Incompatible materials:
	None in particular.
	Instructions as regards storage premises:
	Adequately ventilated premises.
7.	3. Specific end use(s)
	None in particular

	te toxicity:
	Test: LD50 - Route: Oral - Species: Rat > 2000 mg/kg
•	Test: LD50 - Route: Skin - Species: Rabbit > 2500 mg/kg
Corros	vive/Irritating Properties:
Skin:	
•	The product can cause irritation by contact.
Eye:	
	The product can cause damage to eyes by contact
Cancerogeni	
	RC (International Agency for Research on Cancer) believes that the crystalline silica
	d at the workplace can cause lung cancer in man.
	ver, it also points out that the cancer effect depends on the silica characteristics and on the
	cal-physical condition of the environment.
	is a large amount of information in support of the fact that increased risk of cancer is
limited	to persons suffering from silicosis.
In the o	current situation of studies, protection of workers from silicosis can be ensured by
respec	ting the exposure limit values.
Mutagenic Ef	fects:
	ects are known.
Teratogenic I	
	ects are known.
